

# THE LOST AND THE DAMNED

The insane gods of Chaos have many, many servants; daemons large and small, mortal slaves which inhabit the Daemon worlds and give endless praise to their dark masters through toil, bloodshed and sacrifice and the Chaos Space Marines, ever wilful and ever the most favoured of all. An army of the Lost and the Damned represents a combined force of Chaos featuring all of these elements. Such forces will be commanded by powerful Chaos Space Marines, Daemon princes or some other great Demagogue, Traitor or Arch Heretic

who's caught the eye of the Chaos powers. Their armies are often insane personal creations pursuing a path of strategy and tactics which defies rational military explanation. Their followers may be disciplined and well armed, backed with prodigious amounts of armour and firepower or a teeming horde of primitively armed mutants, monsters and daemons. The seemingly insane, unpredictable assaults of such Chaos forces are a nightmare for strategic planners and lowly troopers alike.

Like the Original Lost and the Damned rules this army list uses some units from Codex: Chaos Space Marines, Codex: Imperial Guard and the new entries below. Note: Codex: Imperial Guard is only needed if you wish to include Traitor Fast Attack and Heavy Support units. This list will work perfectly well just using it as an adjunct to Codex: Chaos Space Marines.

## SPECIAL RULES

**Sentries:** A Lost and the Damned Army uses 10 Traitors or Mutants as sentries in scenarios that require them.

**Icons and Daemon summoning:** The Lost and The Damned often call forth Daemons onto the battlefield. All the rules in Codex: Chaos Space Marines apply to Daemon summoning by the Lost and The Damned.

**Legion Rules:** Specific Chaos Legion rules only apply to Chaos Space Marine units and characters of that Legion, not any other Lost and Damned units.

**Vehicle upgrades:** Vehicles in a Lost and Damned force can only use vehicle upgrades from their 'parent' Codex. For example, a Chaos Defiler can only use upgrades from Codex: Chaos Space Marines while Traitor Leman Russ can only choose upgrades from Codex: Imperial Guard.

## HQ

### Arch Heretic

An Arch Heretic is a Chaos Sorcerer or Chaos lord from Codex Chaos Space Marines Page 92 and 93.

### 0-1 Summoned Greater Daemon

Your army may include a Summoned Greater Daemon from page 102 of Codex: Chaos Space Marines. It follows all the same rules as a normal summoned greater Daemon (eg not using up a HQ slot etc)

### Chaos Space marine Aspiring Champion's

Not all Chaos Space Marines choose to remain with their Legion eternally. Personal ambition, vendettas, jealousies, rivalries or the commands of their patrons may set their feet on a very different path. It is easy enough for such powerful warriors to quickly rise to the role of war chief, tyrant or despot to the lesser minions of Chaos.

## Traitors

**Cost: 45 points**

Traitors are those have turned from the Emperor's light and joined their fortunes with the servants of darkness. Mercenaries, pirates, deserters and renegades flock to the banners of a black crusade in the hopes of being rewarded for their perfidy with wealth, power and prestige. With the star of Chaos in the ascendant whole regiments, even entire worlds will turn traitor to survive and wring out their miserable lives a little longer. Some units are led by Chaos Space Marines attempting to build up their own legions, serving beneath a greater liege lord only as long as it serves their purposes. Traitors are typically well armed with weaponry stolen and scavenged from a variety of sources, and have not yet descended so far into madness that their skills are completely lost.

## Mutants

**Cost: 100 points**

The vast bulk of most Chaos legions is made up of a scrofulous tide of hideous mutants. These are the dregs of the Daemon Worlds within the Eye of Terror where uncounted billions raise their harsh voices in insane prayers to unspeakable horrors. The fiercest and least crippled of these fight for a place aboard the Chaos fleets as they go to war, hoping only to slay and plunder in their masters name and perhaps earn the favour of the fickle gods of Chaos. On occasion such dregs may be led by a Chaos Space Marine: blessed as they are with the twisting gifts of the gods, such a mighty warrior is worshipped as a messiah.

Zombies may not take any weapon upgrades or include a Boss. They are however **Fearless**, and because of their shambling gait, they have the **Slow and Purposeful** universal Special Rule

## Gibbering Hordes

**Cost: 30**

For every Daemon, Traitor Marine and Cultist that serves the foul Chaos Gods, there are a cornucopia of lesser beasts that are mindless thralls to the wills of their evil masters. In battle, these creatures, be they swarms of rats, buzzing plague flies, bloodsucking bats, reanimated limbs or even simply diminutive Chaos Spawn, form a living carpet of snapping jaws, grasping hands and corruption that simply overwhelm their more powerful foes with weight of numbers and the iron will of Chaos.

# ELITES

## Big Mutants

**Cost: 105**

Mutation is rife among the legions of Chaos as the uncaring gods bestow their twisted blessings on their worshippers without rhyme or reason. Big mutants are the grossest examples of their kind, huge and thickly muscled with an intellect to match. Whether these creatures were originally human is almost impossible to tell now, some sport bestial heads, dragging knuckles and scaly hides which would be more at home on a Grox. In battle such creatures instinctively group together or may rally around a particularly loud and obnoxious mutant leader.

## Daemon Pack

A Daemon Pack is a unit of Summoned lesser Daemons chosen from page 102 of Codex: Chaos Space marines. However they count as an Elites choice instead of a Troops choice but other wise they follow the same rules for summoned lesser daemons. (Eg not using up an elites slot etc)

# FAST ATTACK

## Chaos Hounds

**Cost: 50 points**

Chaos hounds embody the worst elements of a nightmare hunter. Their bodies are twisted and deformed by the power of the warp so that glistening flesh and muscle are visible through the rips and tears in their lumpen hides and matted hair. Despite their hideous appearance they are lithe and strong, their loping strides capable of catching a fleeing man in a few bounds, pulling them down to their inevitable doom in their shark-like maws.

## Traitor Recon

This may be any **ONE** tank chosen from either the "Hellhound Squadron" entry found on page 101 of Codex: Imperial Guard. Note that you may **NOT** take Hellhounds in Squadrons. A single tank takes up a single Fast attack choice.

**OR** A "Rough Rider Squad" taken from page 100 Of Codex Imperial Guard

**OR** A "Scout Sentinel Squadron" taken from page 100 of Codex: Imperial Guard

**Special rule:** "Support unit" You may only take one Traitor Recon unit for every **Troops** choice of Traitors you have in your army.

# HEAVY SUPPORT

## Chaos Abomination

**Cost: 60 Points**

To gain the attention of the Chaos gods is a supremely risky venture. It may lead to power and riches beyond measure, but it may equally result in the supplicant being reduced to something far less than a man by the corrupting gifts of Chaos. Chaos Abominations are massive Chaos spawn, a heaving, ever-changing masses of flesh, bone and gristle which really have no sane right to be moving around under their own power. But they do move and chase and eat and... well it all gets pretty ugly pretty quickly. Chaos legions use Abominations as terror weapons, unleashing packs of them to hurl themselves at the enemy in a nightmare wave of hopping, drooling, tentacular madness.

	WS	BS	S	T	W	I	A	LD	Save
Chaos Abomination	3	0	5	5	2	3	D6	9	3+

### Unit Composition:

- 3 Chaos Abominations

### Options:

- The squad may include up to 2 additional Chaos Abominations (+20 points each)

### Unit type:

- Infantry

### Weapons:

- Teeth, claws, tentacles, stingers, pseudopodia etc.

## Special Rules:

**Random attacks:** Chaos abominations flail wildly with their twisted appendages in combat. To represent this they have a random number of attacks, determined by rolling a D6 per abomination at the start of each Assault phase when they are fighting.

**Fearless:** Chaos Abominations have long since lost any semblance of rational thoughts or sanity. As such they automatically pass any morale checks or pinning tests they are required to make.

**Insanely stupid.** Make a Leadership test for each Abomination unit at the start of the Chaos player's turn. If the test is failed the Spawn do not move that turn and may not assault. Abominations that are already in an assault don't have to test to fight – they're not that stupid. Independent characters may not join units of Chaos Abominations.

**Rage:** Chaos Abominations suffer from the Rage universal special rule.

**Defiler:** See page 101 of Codex: Chaos Space Marines for points cost details

**Traitor Tank:** This may be any **ONE** tank chosen from either the "Ordnance Battery" entry found on page 103 of Codex: Imperial guard or the "Leman Russ Squadron" Entry found on page 102. Note that you may **NOT** take these units in Squadrons. A single tank takes up a single Heavy support choice.

**Special rule:** "Support unit" You may only take one Traitor tank unit for every **Troops choice** of Traitors you have in your army.
